Business & Tech Solutions Architech

Professional Profile

A dynamic professional with a unique skill set combining project management and sales with experience in developing marketing initiatives from ideation to execution that meet the operational and revenue-based goals of executive leadership teams. With a keen focus on client needs and project outcomes, I excel at developing and delivering solutions that meet technical and business needs.

Areas of Expertise

- Prepare technical and sales-related documents such as user manuals, proposals, and contracts; research and gathering information to assemble demo presentations
- Communicating with cross-functional teams to develop efficient sales and marketing strategies
- Strong ability to learn new platforms, systems, and applications
- Project management
- Excellent communicator that can demonstrate overall benefits clearly to influence investor decisions
- Promote awareness of brand image internally and externally

Technical Skills Overview

- B2B/B2C Marketing
- Perform demos and training with teams on CRM and other software systems: HubSpot, Salesforce Marketing Cloud | Shopify
- Data mining and analytics: Google Analytics | SQL
- API setup and data migration and synchronization for SaaS products
- Web development: HTML | CSS | Javascript | React | Python

Highlight of Achievements

- Pioneered the shift from product-based campaigns to contact-less delivery of self-service options resulting in nearly \$20M of booked revenue generated for credit union clients during the pandemic in 2020
- Published an e-book on the subject of user personas and branding in e-commerce
- Implemented an efficient communications coordinator training program reducing gaps in training time from 90 days to around 45
- Created an internal library of design components to aid the communications team in building client-facing digital products with a turnover from 10 business days to 5
